

It has improved my conversational skills and my confidence to speak. At the beginning of the course I kept speaking Italian, but at the end I could speak in English.

Filomena, General English student

The experience has been great! We have improved a lot our English in our classes. We played lots of vocabulary, memory and grammar games. We have learned a lot of new words that we didn't know before. We went to London where the Buckingham Palace, Big Ben, London Eye, Tower of London, Tower Bridge and Oxford Street where we did some shopping. One day Nuria cooked Spanish omelet and Lisa cooked Ukrainian potato pancakes and both were very yummy! It has been a wonderful experience and we are sad we're leaving tomorrow.

Caroline, LLE Teacher

Yesterday after her first lesson, she was so overwhelmed and so inspired, she said she liked the lesson a lot, she was absolutely happy to experience the feeling that a native speaker was able to understand her pronunciation.

Service Testimonials

When I decided to have a course from LLE, I expected to have normal Business English lessons and visit museum etc.

But during my course, I really enjoyed it and I found it quite a fruitful experience for me. I visited lots of lovely villages in around Cambridge. I discussed millions of topics with the family which was good way of practicing English for me. They were always helpful and so kind to me. I have some grammar problems, the teacher always corrected me kindly.

So, definitely my English has improved. I can say, it was unforgettable, fruitful and enjoyable two weeks in my life.

I highly recommend to new potential students.

Jaime wants to go to Germany to meet his friend Georg. Hopefully we can fulfil that wish!! Friendships between our children are great for us, it is the ideal, learn the language and have a friend!!

We are absolutely delighted with the way the teacher run the lessons. And Jaime has become so much a friend for George that his next aim is to learn Spanish and come to see Jaime. So he will start to learn Spanish after his exams in June.

I really appreciate everything you've done for me. It was definitely unforgettable experience in my life.

Thank you so much for teaching me, all the things I learned was really helpful and I could improve my English.

Thank you for taking me to activities such as bowling, shopping, and BBQ. It was really fun! I'm also happy that I could talk to your family members and kids. It reminds me back to when I was in Japan and playing with my cousin.

I loved your cooking! Thank you so much for taking care of me. I can't thank you all enough.

I miss you already... I'm looking forward to seeing you again some time.

Reia, 15, Young Learners course student

As a director of a company, I felt I needed to improve my English, and a total immersion course meant that I could do this quickly without being away from the office for a long time. I could work on my own personal work documents with my teacher, which was very helpful. I liked how the course was tailored specifically to me.

Pierre, Business and Professional English student

My host family was amazing! They treated me so well, being so kind to me all the time! I was lucky to have the same host family throughout my years in the UK. They always made me feel comfortable and cozy during my stays, bringing me to visit different places and I watched my first ever rugby game with them! They taught me so many skills from them that I never would have tried myself, baking Victoria sponge, banana cake, chopping some woods, and making a fire etc. (already missing it!) They even organised a birthday party for my 18th birthday! They always told me that if I came across any difficulties, I could always go to them for help, they are really the nicest people! I still keep in contact and send pictures to each other till now!

The teacher is fluent in many languages, we could communicate in English, Chinese and German. The books recommended by him for Kenneth to read to broaden his horizon have been incredible. Kenneth was so drawn to them and worked harder than ever. The teacher also helped greatly with correcting pronunciation and mistakes, and is always very patient in listening to Kenneth's ideas and giving very useful advice on improving writing skills and Maths, which is exactly what we want from a teacher. With his teacher's encouragement, Kenneth is even more motivated.
